

THE SMARTPHONE FILM SCANNER

INSTANTLY SCAN AND SHARE 35MM FILMS

SMARTPHONE
FILM
SCANNER

With the LOMOGRAPHY SMARTPHONE FILM SCANNER you can easily scan, edit and share your 35mm films via social media and email.

Simply turn on the scanner back-light, insert your negative, take a photo with your Smartphone and use the custom-built App to edit your photos. In an instant, you'll end up with a digital version of your film which can be archived, shared with friends and even printed!
